Privacy Policy

Last updated: 7 November 2026

Who we are

SmartSkan is published by Leisan LTD, a company registered in England and Wales (company number 14494525), 22 Holy Road, Kettering, NN16 9PN, United Kingdom ("we", "us"). We are the data controller for the limited personal data described below. You can contact us about privacy at desmondtinarwo@gmail.com.

Your documents stay on your device

Scans, imported PDFs, photos, extracted text, QR and barcode history, spending records and your saved signature are stored only in the app's private storage on your device. We do not upload them to our servers and we cannot see them. They are deleted when you delete them in the app or uninstall it.

If Android backup is turned on for your Google account, Android may include app data in your device backup. That backup is managed by Google under your Google account settings, not by us.

Scanning and text recognition

Document scanning, QR/barcode scanning and text recognition use Google ML Kit and Google Play services. This processing happens on your device; your images are not sent to us. Google Play services may collect limited diagnostic and usage data under Google's Privacy Policy (policies.google.com/privacy).

File access

If you use Browse PDFs, the app asks for permission to read files on your device so it can list PDFs saved by other apps. Files are only read when you choose to open or import them, and are never uploaded.

Advertising

The free version shows ads served by Google AdMob. To show and measure ads, Google may collect your device's advertising ID, IP address, approximate location, device and app information, and how you interact with ads.

In the UK, EEA and Switzerland we ask for your consent through Google's consent form before ads are personalised. You can change your choice at any time in Settings > Ad privacy choices, and you can reset or delete your advertising ID in your device settings. If you buy Remove ads, the app stops requesting ads.

Learn more: policies.google.com/technologies/ads

Purchases

The Remove ads purchase is processed by Google Play. We do not receive your payment card details. Google tells the app whether the purchase was made so it can remove ads and restore them on a new device. Google's handling of payment data is covered by the Google Payments Privacy Notice.

If you contact us

If you email us, we use your email address and the contents of your message only to reply and help you. We keep this correspondence for up to 2 years, then delete it.

Legal bases (UK GDPR)

- **Consent —** personalised advertising (you can withdraw it at any time).
- **Legitimate interests —** showing non-personalised ads to fund the free app, preventing fraud and keeping the app working.
- **Contract —** providing the Remove ads purchase.
- **Legitimate interests —** replying to your messages.

Sharing and international transfers

We do not sell your personal data. Data is shared only with Google (AdMob, Google Play and Google Play services) as described above. Google may process data outside the UK; it uses approved safeguards such as the UK International Data Transfer Addendum and Standard Contractual Clauses.

Your rights

Under UK data protection law you have the right to access, correct or delete your personal data, to restrict or object to its use, to data portability, and to withdraw consent. Because your documents are stored only on your device, you can view and delete them directly in the app. To exercise any right, email desmondtinarwo@gmail.com.

You can also complain to the Information Commissioner's Office (ico.org.uk, 0303 123 1113).

Children

SmartSkan is not directed at children under 13, and we do not knowingly collect personal data from them.

Changes to this policy

We may update this policy from time to time. The latest version is always available in the app, with the date it was last updated shown at the top.
